Specializations: SEO, performance tuning, responsive design, UI/UX
AI & Automation: GitHub Copilot, ChatGPT, Claude, workflow automation

TECHNICAL SKILLS

Languages: PHP, JavaScript, HTML5, CSS3, SQL, Bash, Basic Flutter
Backends: Laravel (8-11), Express.js, Node.js patterns
Frontend: React, Next.js, Tailwind CSS, component design
Databases: MySQL, PostgreSQL, Redis caching, optimization, indexing
Web Tech: REST APIs, JSON, XML, AJAX, WebSockets, OAuth 2.0
DevOps: Docker, Linux (Ubuntu/CentOS), Nginx, Apache, VPS mgmt
Version Control: Git, GitHub, branching, pull request workflows
Tools: WordPress, Figma, VS Code, PhpStorm
SEO & Performance: Technical SEO, speed optimization, Core Web Vitals
AI Tools: Copilot, ChatGPT, Claude, Gemini for development

PROFESSIONAL EXPERIENCE

FREELANCE FULL STACK DEVELOPER (2023-Present)

OfferLutBox.com: Affiliate platform with Laravel backend, React+Next.js frontend,

=====

FEATURED PROJECTS

OfferLutBox.com - Affiliate & Offer Management SaaS

Technologies: Laravel 10, React, Next.js, PostgreSQL, Redis, Docker, Nginx

Responsibilities:

- 50+ RESTful API endpoints for offer, tracking, analytics management
- React dashboard with real-time analytics, WebSockets, Redis pub/sub
- Affiliate tracking: pixel tracking, postback handling, multi-network support
- Landing page builder with drag-drop, templates, SEO optimization
- Database schema for offers, conversions, affiliates, normalized structure

Challenges & Solutions:

- High-volume tracking: Redis queue + batch processing with Laravel Horizon
- Multi-network complexity: Abstraction layer for network-specific APIs

Results: 99.5% uptime, 100K+ daily conversions, 150+ affiliate accounts

E-Commerce Platform with Multi-Vendor Support

Technologies: Laravel, MySQL, Tailwind CSS, Stripe/SSL Commerz, AWS S3

Features: Multi-vendor marketplace, commission management, product catalog, advanced filtering, secure payments, order management, invoice generation, shipment tracking, admin analytics, customer reviews, rating system

Achievements: 60% page load time reduction via query optimization, image optimization with WebP, PDF invoice generation, payment retry logic

School Management System

Technologies: Laravel, MySQL, Bootstrap 5, jQuery, Google Charts

Features: Student management, registration, class management, attendance with SMS notifications, exam management (questions, marking, results), fee collection, teacher dashboard, parent portal, admin reporting

Impact: 5+ schools, 1000+ students managed

College Management System

Technologies: Laravel, PostgreSQL, Vue.js, REST API

Features: Online admission, course registration, prerequisites, fees, exams, communication system, transcripts, degree verification

EDUCATION

Running Student: Shariatpur Government College, Bangladesh
